Persona C30 Single-Sided ID Card Printer

### One side, or two?

The Persona C30 ID Card Printer comes in both single- and dual-sided models. If you only need cards printed on one side, choose the compact, single-sided C30. But if you want the flexibility of printing on both sides — to put a bar code on the back, for example — opt for the dual-sided C30. Either way, you'll get one of the easiest-to-use ID card printers available: the Persona C30.
