The World's Most Secure  
Card Identity Systems

FARGO®

# DTC400

DIRECT-TO-CARD PRINTER/ENCODER

## Improving Your Organization's ID Card Security Just Got Easier!

When it comes to printing and encoding plastic ID cards, nothing is easier or more secure than the Fargo DTC400.

### Making your organization more secure just got easier.

There's no easier way to increase your employees' security and decrease your organization's vulnerability to loss than by issuing photo ID cards. And now there's no easier, more secure way to issue photo ID cards than with the next-generation DTC400 Direct-to-Card Printer/Encoder.

Everything about the Fargo DTC400 is specifically designed to make issuing IDs and securing your organization go smoothly. It's simple to operate and virtually maintenance-free. Plus, it can scale easily as your needs expand. When you add in Fargo's Print Security Suite, the DTC400 is not only the easiest card identity system in its class to use, it's also the most secure.

### Never hassle with ribbons or card cleaning again.

Anyone who's ever operated a card printer knows the drill: loading ribbons can be difficult, separate card-cleaning mechanisms are a pain, and blinking indicator lights can be more confusing than helpful. The DTC400's next-generation "one-way" loading design eliminates these problems once and for all. It's the first printer to feature Fargo's SmartLoad™ Ribbon Cartridge, our all-in-one print ribbon/card cleaning system. This handy, disposable cartridge installs in one easy step — just slide it into place and you're done. Best of all, our patent-pending SmartClean™ Roller is integrated into

Keep your cards and print head free from potentially damaging dust and debris with our integrated SmartClean Roller.

Just slide it in and start printing! Your DTC400 ribbon comes ready to use in a self-contained, disposable SmartLoad Ribbon Cartridge.

**Say goodbye to routine maintenance!** With Fargo's one-step SmartLoad Ribbon Cartridge, there's no fumbling with rolls of ribbon or separate card cleaning mechanisms. Simply slide the cartridge in, close the door, and you're done. There's nothing to feed, nothing to fumble with — nothing to tear!

every cartridge, so you'll never have to deal with a separate card cleaning mechanism again.

### Never again wonder what your printer is trying to tell you.

Another next-generation feature of the DTC400 is Fargo's SmartScreen™ LCD Control Panel. Unlike other card printers that communicate with confusing, blinking lights (or worse, no status indicator at all), the DTC400 features a clear display of easy-to-understand prompts and commands. You'll always know the status of your printing and encoding.

**Troubleshooting is easy.** Fargo's exclusive SmartScreen LCD Control Panel replaces confusing indicator lights with easy-to-understand prompts and commands. You'll always know the status of your DTC400.

### Think your needs might change? Never fear, the DTC400 adapts easily to change with you.

It's difficult to know what type of card functionality you might need in the future. Don't worry. Fargo lets you add encoding and/or dual-sided printing modules to your DTC400 as your security system grows. Order the DTC400 that's right for you today (i.e., with mag-stripe encoding only). Then, rest easy knowing you can add a proximity card encoder, smart card encoder, or dual-sided printing module to it tomorrow.

**Print two-sided cards faster with our optional dual-sided printing module.** It lets you print both sides of your cards in one easy pass.

### Card identity security starts with Print Security Suite from Fargo.

The DTC400 is the most secure card printer in its class thanks to our optional Print Security Suite. This user-friendly software provides you with up to five powerful applications to help control, monitor, maintain and secure your system. You get an unparalleled level of integrated security between your printer/encoder, software and materials.

**Contact an authorized Fargo integrator about the DTC400 Card Printer/Encoder today.**

**EXCLUSIVE!** Take your security to the next level. The DTC400 is enabled with SecureMark Technology, to provide your cards, your printer, and your organization with the latest advances in card identity security.

**EXCLUSIVE!** Never wonder what your printer is trying to tell you again, thanks to our SmartScreen LCD Control Panel. The DTC400 is the only card printer in its class that replaces confusing indicator lights with clear, easy-to-understand prompts and commands.

Increase the security and functionality of your cards with Fargo's optional encoding modules. Field-upgradeable encoding modules let you scale your DTC400 as your needs grow. Simply add secure proximity or smart card functionality any time you're ready. You can also add mag-stripe encoding at any time.

**Issue durable, high-quality cards every time.** For low-to-medium security applications, Fargo's reliable Direct-to-Card (DTC<sup>®</sup>) printing technology consistently produces vivid, great-looking results.

**EXCLUSIVE!** Maintain your print quality while protecting your print head, with our convenient SmartClean Roller. Intelligently integrated into our all-in-one SmartLoad Ribbon cartridge, the SmartClean Roller automatically removes potentially damaging dust and debris from each card before it is printed.

**EXCLUSIVE!** Save time and eliminate the expense of torn, wasted ribbons with our SmartLoad Ribbon Cartridge. Simply slide the cartridge in, close the door, and you're done. There's nothing to feed, nothing to fumble with — nothing to tear!

PROTECTED BY  
**SECUREMARK**  
TECHNOLOGY

Print Security Suite is an option available from select authorized Fargo integrators.

Control the issuance and ensure the authenticity of your ID cards with Print Security Suite.

With our optional Print Security Suite, you can control, monitor, maintain, and most importantly, secure your card identity system. Fargo SecureMark™ Technology enables the suite, creating an unparalleled level of integrated security between your printer/encoder, ID software and materials.

Depending on your desired level of security, you're free to activate any combination of these five powerfully secure and convenient applications. Print Security Suite delivers a level of convenience and security that not only keeps you printing, it keeps you protected.

**Password Control**  
The first line of defense against unauthorized use.

**Security Imaging**  
Covert features add a vital layer of card security.

**Print Notification**  
Ensure around-the-clock integrity of your printer.

**Print Diagnostics**  
Quickly assess and fix printer/encoder issues.

**Supplies e-Ordering**  
Secure supplies are a convenient click away.

\*Indicates the ribbon type and the number of ribbon panels printed where Y=Yellow, M=Magenta, C=Cyan, K=Resin Black, F=Fluorescing

\*\*Print speed indicates an approximate print speed and is measured from the time a card feeds into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, the CPU, amount of RAM and the amount of available resources at the time of the print.

The Fargo DTC400 Card Printer/Encoder has been tested to ensure that it meets Microsoft® standards for Windows® compatibility. Microsoft, Windows, and the Windows logo are trademarks, or registered trademarks of Microsoft Corporation in the United States and/or other countries.
